The C&X Conexion Welding Gun Range

ARG-C

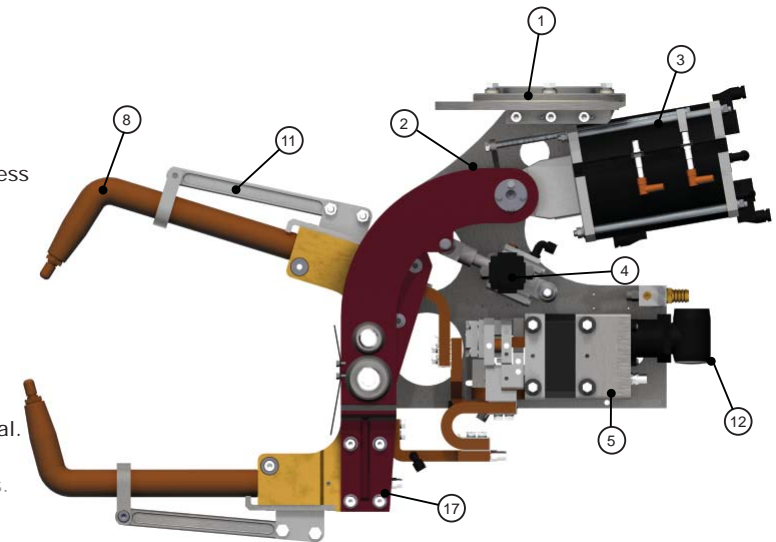

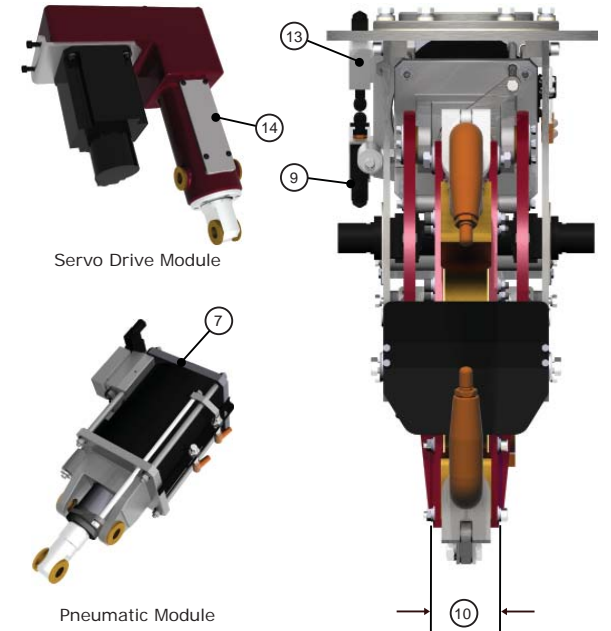

The C&X Conexion welding gun range was developed after working with users all over the world for many years.

C&X Conexion guns are designed to be both practical and cost effective whilst maintaining a robust solution in today's competitive automotive market.

The key advantages of the C&X Conexion guns include:

1. Universal Flange Adaptor, compatible with all major robot brands
2. Simple Plate Design for ease of maintenance.
3. Power Module Options (Servo or Pneumatic).
4. Integrated self equalizing system.
5. Transformer is not a structural part of the gun and hence has no induced stress, and can be replaced easily.
6. Most Major Parts – Single Minute Exchange.
7. Pneumatic guns can be fitted with retract option.
8. Gun arm diameters are standard 50 or 60 mm, other options are available on request.
9. Rapid Exhaust System.
10. Slim Compact Design giving improved gun access to spots.
11. Optional Arm bracing for High Loads. Giving good weld access
12. Multi Contact Connector.
13. SMC Fast operating Pneumatics.
14. Hi Load Ball screw Ram gives reliability (Designed for excess of 20 Million Spots).
15. MFDC transformers are offered as standard, AC are optional.
16. Gun arms can be designed to suit customer requirements.
17. Steel Plate Design for ease of Repair in the Field (Aluminium Available).
